| Position | Life Cycle Analyst |
| Location | Boston, MA or San Francisco, CA, USA |
| Application period | Ongoing |

Reason for this job opportunity

Quantis seeks to recruit a highly motivated and dynamic Life Cycle Analyst to join our growing US team. Consideration will be made of both senior and/or junior candidates. The Analyst will be a member of the US Quantis team and will interact with the other team members based in Canada and Europe. The Analyst will be in charge of conducting and delivering Life Cycle Assessment projects for clients with the goal of improving their understanding of their environmental impact and helping them make key decisions and take action to improve environmental performance.

Responsibilities

Reporting to the US Director of Quantis, the Analyst will be responsible for some combination of the following:

- Conducting life cycle assessments
- Assessing corporate environmental sustainability metrics
- Consulting with clients to assist them in their understanding and implementation
- Collecting critical data from clients as well as from other available sources
- Preparing reports and presentations
- Developing unique solutions
- Managing client interactions, project work or business development
- Supporting software customers

Qualifications

Critical qualifications and competences:

- One or more years' experience in performing, managing, interpreting and/or communicating of Life Cycle Assessment (LCA) and/or related topics whether from an academic, industry or other background
- Ability to structure own work and self-motivated
- Sound problem solving skills
- Scientific expertise
- Ability to communicate effectively and build relationships with clients

Preferred qualifications

- Previous experience in the consulting business

About Quantis

Quantis is a leading life cycle assessment (LCA) consulting firm specialized in supporting companies to measure, understand and manage the environmental impacts of their products, services and operations. Quantis is a global company with offices in the United States, Canada, Switzerland and France and employs close to 70 people, amongst which several are internationally renowned experts in the LCA field.

Quantis offers cutting-edge services in environmental footprinting (multiple indicators including carbon and water), eco design, sustainable supply chains and environmental communication. Quantis also provides innovative LCA software, Quantis SUITE 2.0, which enables organizations to evaluate, analyze and manage their environmental footprint with ease. Fuelled by its close ties with the scientific community and its strategic research collaborations, Quantis has a strong track record in applying its knowledge and expertise to accompany clients in transforming LCA results into decisions and action plans.
