

PERFORM WATER FOOTPRINTING IN YOUR ORGANIZATION

Quantis provides world-leading expertise in Life Cycle Assessment (LCA) and offers coherent, high impact solutions to organizations that are environmentally and socially responsible and wish to better understand and manage the stakes at hand.

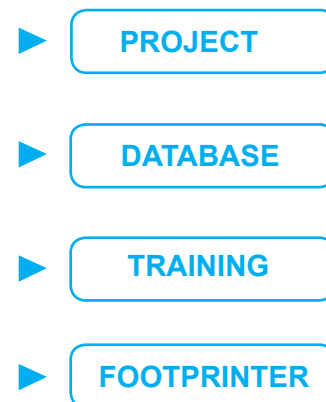

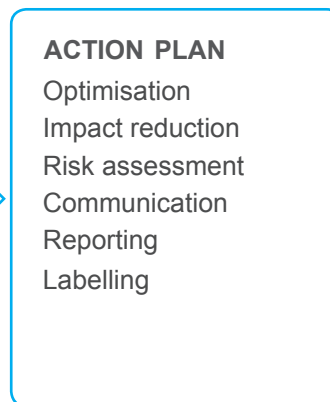

A COMPLETE AND UNIQUE APPROACH TO PERFORM WATER FOOTPRINTING

Good quality freshwater is a scarce resource, one that is becoming increasingly rare in some parts of the world due to increased demand and pollution. The scarcity of freshwater generates significant problems for human health, social/political stability and ecosystems as well as being a source of risk for companies. Corporate involvement is a fundamental solution to this issue, but methods to identify effective actions are lacking. Quantis helps you to fulfill your water assessment needs by helping you master existing methods and standards to perform water footprints.

WATER DATABASE

YOUR STRATEGY

WHY PERFORMING WATER FOOTPRINTING WITH QUANTIS?

OUR TEAM

Dedicated experts
Water initiatives
Expert network

OUR APPROACH

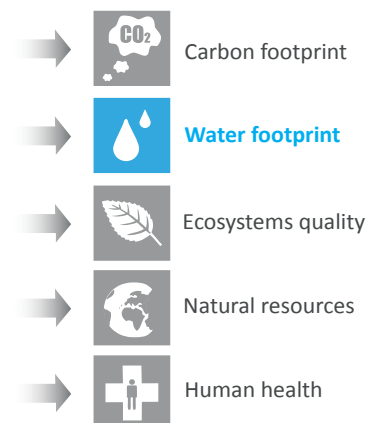

Multi-criteria approach
Deep understanding
Data provider

OUR SCIENTIFIC FRAMEWORK

Most up-to-date methodologies
Direct and indirect water use
Blue, green, grey water evaluation
Water pollution (coherent) assessment

Life cycle approach

A global vision
of production-consumption chain

A COMPLETE AND UNIQUE APPROACH TO PERFORM WATER FOOTPRINTING

WATER FOOTPRINTING PROJECTS

Calculate the water footprint of a product, company or service

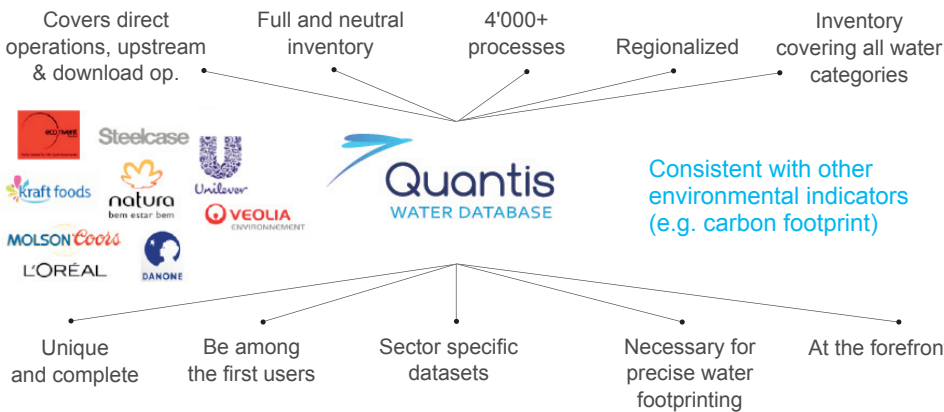

Integrate the latest water footprint developments and methodologies

Integrate water footprinting into your decision making process and strategy

WATER DATABASE

THE DATABASE

- ▶ Comprehensive Water Database
- ▶ Regionalized, direct/indirect data, various water categories
- ▶ 4000+ industrial processes as well as plant production
- ▶ In line with WFN methodology
- ▶ Integrate impact assessment method results

BENEFITS OF THE DATABASE

TRAININGS AND WORKSHOPS

Over 20 water footprint courses given around the world in 2011

Based on water footprint assessment, communication and strategy

Discussion and analysis of sector specific case studies

WATER FOOTPRINTERS

Leverage LCA studies based on robust scientific calculations

Communicate LCA results in a simple, fun and intuitive manner

Share online with a large panel of users

ABOUT QUANTIS

Our unique combination of services and products includes LCA and support on demand, coaching, training, and more. Quantis' team of leading LCA experts can devise a strategy to adapt and evolve with your goals and needs.

Quantis advises multinationals and SMEs and realizes LCA of recognized quality. This quality is ensured through our internationally renowned scientific expertise to identify, develop and apply state-of-the-art methods in partnership with leading research institutes. Quantis also designs the standards of tomorrow by participating in standardization efforts.
